

# UV Curable Adhesive

**MXBON**<sup>®</sup>  
Adhesives Expert

## Bonding

PVC Plastic

200–400 cPs

Bonds PVC、Glass、Ceramic

Low viscosity for tight-tolerance bonding

**41131**

PVC Plastic

3,500–7,500 cPs

Thixotropic; avoids overflow

Bonds PVC、Glass、Ceramic

**41132**

PC Plastic

8,000–14,000 cPs

Flexible & impact resistant

**41430**

Metal

200–400 cPs

Metal, plastic & glass compatibility

**41431**

## Sealing

PC、PBT、PA Plastic

14,000–24,000 cPs

Excellent sealing and good water resistance

**41011**

PC、PVC Plastic

18,000–35,000 cPs (Paste-like)

Large gap sealing, connector reinforcement

**41433**

## Structural Bonding

14,000–25,000 cPs

Multi-cure system (UV + activator + heat)

Excellent for magnet bonding

**41352**

STEP 1 Select Application: Bonding / Sealing / Structural Bonding

STEP 2 Match Viscosity & Substrate Requirements
